### **Product families and priorities for the CPR Technical Acquis management.**

After having identified the criteria and their weight, the members of the CPR Acquis group (Member States, EFTA countries and Turkey) offered their view on product families by valuing them within the 8 identified criteria.

Then, the results of valuing product families were combined with the weight of the different criteria in order **to identify firmly product families to target as a priority by future technical specifications.**

The final list of product families as prioritised is shown below.
